J Codes allow further categorisation of charges and expenses incurred during litigation, based on the experience of the litigator. This guide will demonstrate how to set up Fee Earners ready to use J Codes.

Please see the bottom of this page for a table listing the grade codes and description to assist you in selecting the relevant grade.

Setting up Fee Earners

To accurately record Tasks/Phase codes, you will need to assign the litigator a grading. Navigate to Supervisor > Code Setup > Fee Earners.

When you add a new fee earner or edit an existing one, you will have a choice to assign a grade at the bottom of the page.

You will also have to enter the start and end dates.

Grade:	<input type="text" value="A"/>	Start Date:	<input type="text" value="01/01/2015"/>	End Date:	<input type="text" value="01/01/2019"/>
Current grade: A					

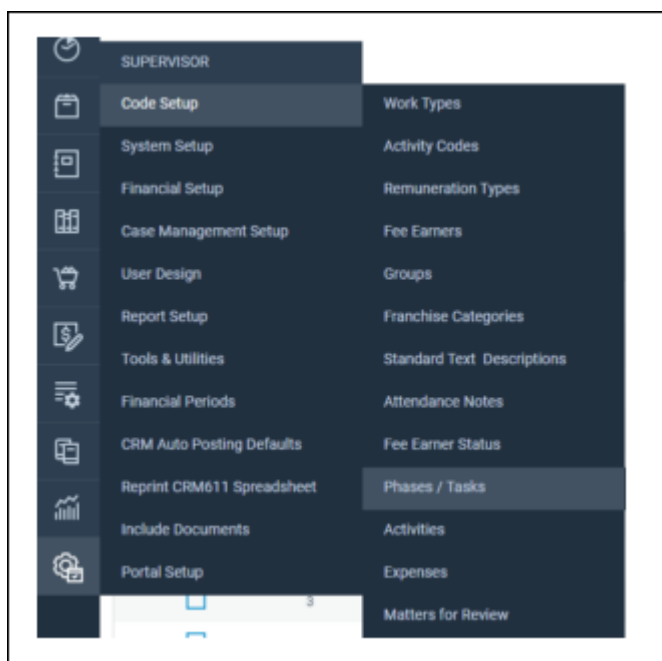

Once completed, the fee earner will be able to record time against the grade assigned to them. If several fee earners will be using the time recording,

Grading Table

Configure Codes

Further Task Codes, Activity Codes and Expense Codes can be set up by a system supervisor, as well as amendments to existing Codes.

Phase/Task Codes

Task codes define the task being performed, and can be mapped to one of ten phases. When adding or editing a task code, you can select which Phase is to be mapped to.

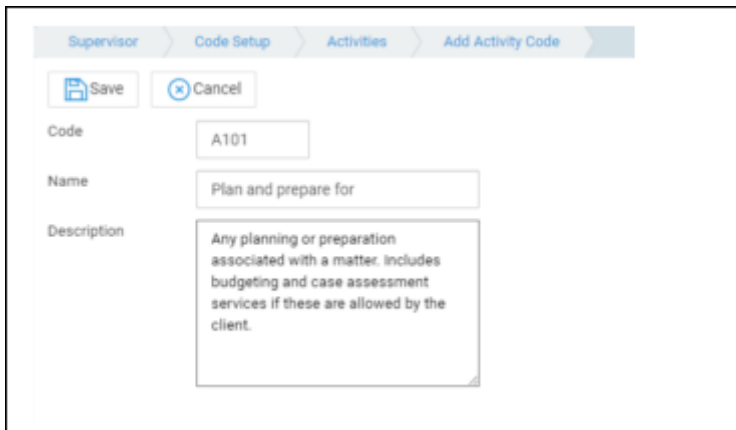

The screenshot shows the 'Add Phase / Task Code' form. At the top, there is a breadcrumb trail: Supervisor > Code Setup > Phases / Tasks > Add Phase / Task Code. Below this are 'Save' and 'Cancel' buttons. The form contains the following fields:

- Code:** JA00
- Name:** Funding
- Description:** All work relating to reviewing funding options, securing funding and reports to funders during the life of the case.
- Mapping:** A dropdown menu with 'Select' at the top. The list of options includes: Pre-action Costs, ADR / Settlement discussions, Issue / Statement of costs, Disclosure, Witness Statement, Expert Reports, and CMC.

Activity Codes

Fee Earners can assign Activity codes to their time recording. Supervisors can also add new activity codes if required.

The screenshot shows the 'Add Activity Code' form. At the top, there is a breadcrumb trail: Supervisor > Code Setup > Activities > Add Activity Code. Below this are 'Save' and 'Cancel' buttons. The form contains the following fields:

- Code:** A101
- Name:** Plan and prepare for
- Description:** Any planning or preparation associated with a matter. Includes budgeting and case assessment services if these are allowed by the client.

Expenses Codes

Much like Activity Codes, existing Expenses codes can be amended, or additional Expense Codes can be added.
