## Who is this guide for?

Any Users

The Osprey Approach Outlook Add-in can be installed either on your local copy of Outlook or through Outlook 365.

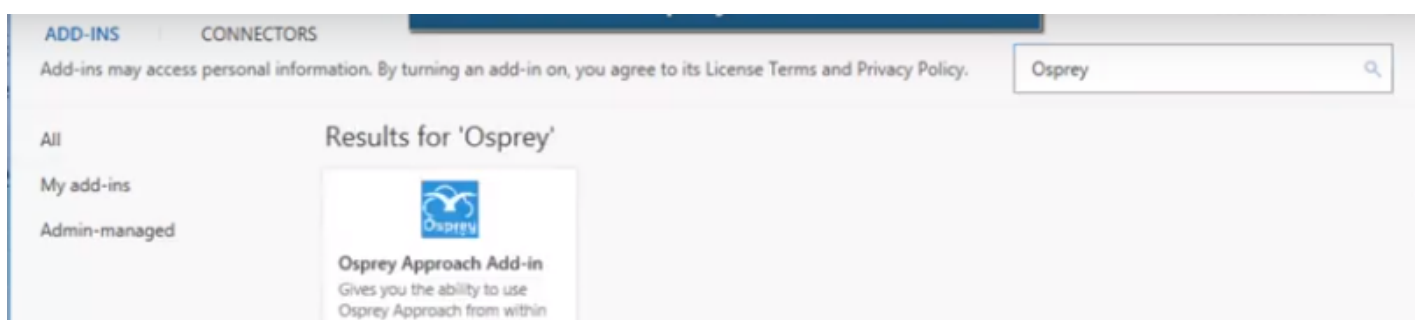

We have also produced a short video if you prefer to watch these steps.

### Step 1

First, let's install the add-in, within Outlook, navigate to the 'Home' tab and select the Get Add-ins.

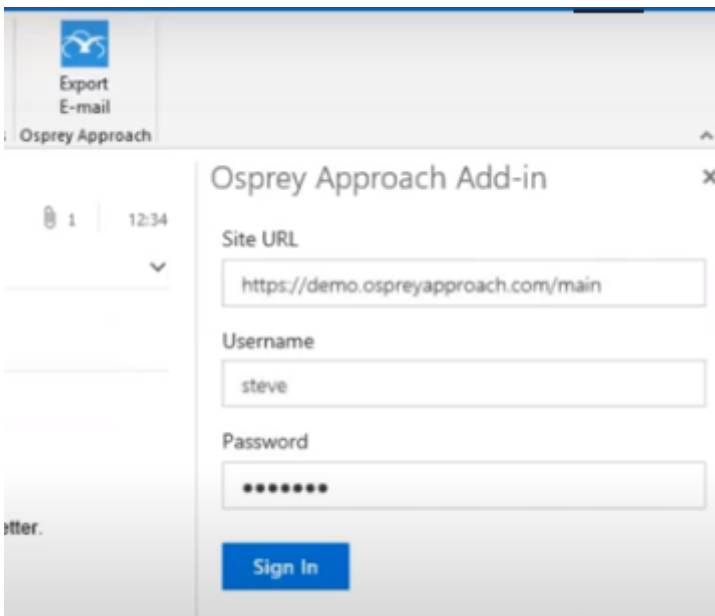

Search for 'Osprey' and select 'Add'.

## Step 2

Select Export E-mail and enter your Osprey URL and credentials.

The progress bar will show you which stage of the export process is currently underway. If you know the client and matter you wish to export the email to, enter them, alternatively you may search for it.

Select Client/Matter Export

Client/Matter search

[Show advanced search](#)

Results

CLIENT NO	MATTER	DETAILS	FORE
F0006	1		Becky
F0007	1		Becky

Click Search

Then left-click on the client to select them.

Add a 'Detail' to be displayed in the Osprey Matter History. You can also set a custom type, a folder, and a retention period. To export the email only, tick the option. Ticking Time posting will display the time recording options. click Export.

Select Client/Matter Export

## Step 4

When logging into your emails through Office 365, you will notice an Osprey Approach icon.

Sign in to enable the same functionality as found on your local copy of Outlook. The add-in will also be available on any new email sent from Outlook 365.
