View and remove stored passwords

If your web browser has stored your password, you can view and remove it by following the below stages

Google Chrome

Managing Passwords

1. On your computer, open Chrome.
2. At the top right, select Profile 👤 ❯ Passwords 🔑.
   - If you can't find the Passwords icon, at the top right, select More ⋮ > **Passwords and autofill** > **Google Password Manager**.

- **Show:** To the right of your password, select the Arrow ▸ > Show password 👁.
- **Edit:** To the right of the password, select the Arrow ▸ > **Edit**.
- **Delete:** To the right of the website, select the Arrow ▸ > **Delete**.

Password saving

By default, Chrome offers to save your password. You can turn this option off or on at any time.

1. On your computer, open Chrome.
2. At the top right, select Profile 👤 > Passwords 🔑.
   - If you can't find the Passwords icon, at the top right, select More ⋮ > **Passwords and autofill** > **Google Password Manager**.
3. On the left, select **Settings**.
4. Turn **Offer to save passwords** on or off.
