

Release Notes

Update: v1.0.5

Web Portal

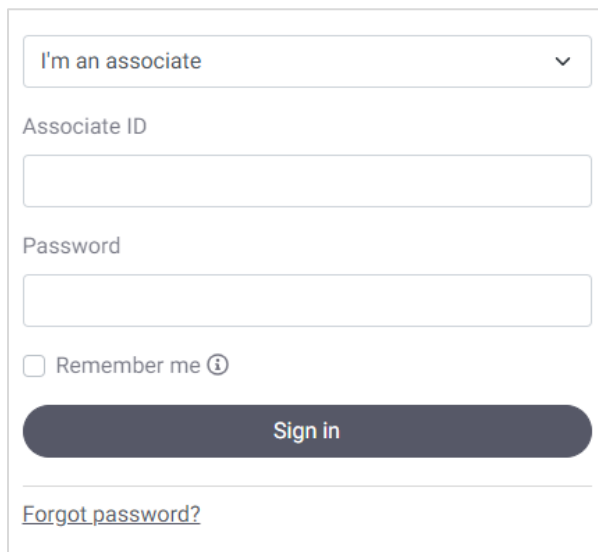

Contents

Rename label on login page	3
Client name displayed	4
Updating email addresses for the portal	5
Renaming the deal room	6

Rename label on login page

Previously, when logging into the portal as an associate, the email box was not working.

In this update, when associates log in, the email box has been removed as it isn't necessary.

The screenshot shows a login form for an associate. At the top, there is a dropdown menu with the text "I'm an associate" and a downward arrow. Below this are two text input fields: "Associate ID" and "Password". Under the "Password" field is a checkbox labeled "Remember me" with an information icon to its right. A dark grey "Sign in" button is positioned below the checkbox. At the bottom of the form, there is a link that says "Forgot password?".

Client name displayed

Previously, when logged in as an associate, the clients' name was not displayed, only matter information.

In this update, the clients' name is displayed as well as matter information to aid associates in selecting the correct client / matter.

Updating email addresses for the portal

Previously, if you updated a clients' email address in Osprey, it would not update in the background, meaning the email address in the portal was not updated.

In this update, if you update the clients' email address in Osprey, they can use that new email to log in to the portal.

Please note, this has only been implemented for the web browser.

Renaming the deal room

We have renamed the deal room tab in the web portal to File Sharing / Upload.
